

High Purity Gas Delivery Systems and Equipment

For a Diverse Range of Industries,
Environments, and Applications

Your high purity gas delivery solutions should be right-sized for your requirements, and tailored to your process needs. **Don't settle for less.**

Versatile | Proven Safety | Cost-Effective | Quality without Tradeoffs

The VERSA-GAS™ line by Applied Energy Systems (AES) serves customers from a **diverse range of verticals that seek safe, reliable high purity gas delivery and distribution systems and equipment** built to cost-effectively address diverse requirements with safety top of mind.

Since 1968, customers have turned to AES for the engineering quality found in our VERSA-GAS™ solutions. The inherent versatility of these products make them ideal for powering high purity gas applications in pharmaceuticals and biotechnology, photovoltaics, manufacturing, research laboratories, universities and more.

VERSA-GAS™ is designed to meet our customers' budget and application demands without quality tradeoffs. **You won't settle for less than the best in reliability and safety.**

Explore our VERSA-GAS™ Solutions for High Purity Applications:

High purity gas delivery systems made for diverse environments and requirements.

PRODUCTS INCLUDE:

vSource™ Cabinets

- One Cylinder Manual Gas Cabinets
- One, Two, and Three Cylinder Semi-Automatic Gas Cabinets
- Two and Three Cylinder Fully Automatic Gas Cabinets
- Gas Cylinder Storage Cabinets

vSource™ Racks

- Protocol Station Rack Mount Systems
- Manual Rack Mount Systems
- Semi-Automatic Rack Mount Systems
- Fully Automatic Rack Mount Systems
- Multi-Cylinder/Bulk Rack Mount Systems

vSource™ Panels

- Two and Three Valve Manual Gas Panels
- Four, Seven, and Nine Valve Semi-Automatic Gas Panels
- Seven and Eleven Valve Fully Automatic Gas Panels

vSupplyTM GAS DISTRIBUTION SYSTEMS

Powering safe and reliable high purity gas distribution systems in flexible designs.

PRODUCTS INCLUDE:

- Manual Valve Manifold Boxes
- Semi-Automatic Valve Manifold Boxes

vBulkTM BULK SPECIALTY GAS SYSTEMS

Proven to perform with the utmost reliability for bulk process gas delivery.

PRODUCTS INCLUDE:

- Semi-Automatic Bulk Gas Rack Mount Systems
- Fully Automatic Bulk Gas Rack Mount Systems (Including Wall Mount Options)

vRunTM CONTROLLERS

High purity gas equipment controller technology that ensures safety is top priority.

PRODUCTS INCLUDE:

- ESS Controllers
- HPM II Controllers
- HPM III Controllers

Why Choose VERSA-GAS™?

You understand your needs, and so should your gas delivery partner. That's why customers in a diverse range of verticals rely on the combination of expert engineering and application know-how that goes into every VERSA-GAS™ high purity delivery and distribution system. We ensure that your gas delivery investments are working for you and your process demands – no matter how small or great your need.

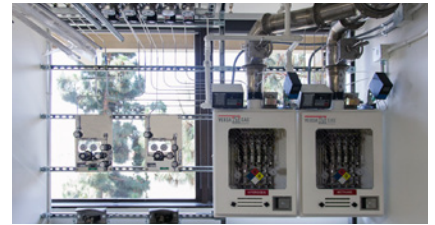

A Deep Understanding of Diverse Demands

Having developed VERSA-GAS™ solutions to support gas delivery requirements in verticals from manufacturing to research, our veteran team has first-hand experience providing high-value engineering for application-specific needs.

Right-Sized for Your Unique Requirements

Our products and solutions scale to your needs, no matter the size or scope of your requirements. Companies of all sizes, from innovative start-ups to global market leaders, enjoy VERSA-GAS™'s superior versatility, dependability, and safety.

Cost Effectiveness without Quality Compromises

With our VERSA-GAS™ products, we ensure that your gas delivery solutions are achieving what they need to safely and reliably, and that your investment is scaled to fit your requirements.

Brought to You By Applied Energy Systems

Singularly focused on excellence in gas delivery, customers turn to Applied Energy Systems (AES) for high-value systems engineering – including design, manufacturing, integration and training. Our excellence permeates our products, services, solutions and every industry we touch, to power process innovation for hundreds of organizations worldwide.

Through our VERSA-GAS™ products, AES is raising the standard for gas delivery quality, and enhancing the standard of business for hundreds of customers worldwide.
